

Granit du Tarn* & granit Noir*.
200 x 100 x 90 cm.

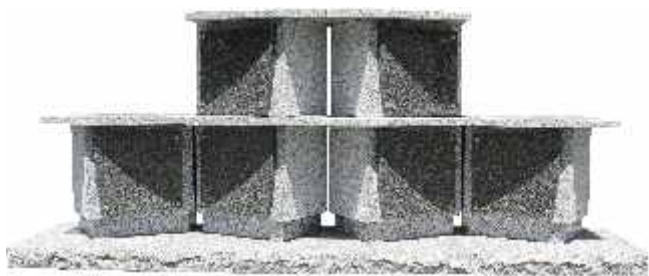

*matériau naturel sujet aux variations de nuances.

Le columbarium Stix met en valeur l'**empilement architectural**.

Son principe, en jeu de construction, autorise une grande liberté de **combinaisons**, sans limiter le nombre de cavurnes. Les casquettes spécifiques permettent de poser devant chaque case un objet personnel mais aussi d'éviter la monotonie frontale. Le granit du Tarn et le granit Noir s'associent pour équilibrer le volume global de l'ensemble construit.

FABRICATION FRANÇAISE
